Pembroke Town Walls and Beyond

A free one-day course for owners of historic properties

Foundry House Community Centre

Wednesday 8th May 10am to 4pm

**Presented by the Pembroke Town Walls Trust in
partnership with the Tywi Centre**

A guide to the essential repair and maintenance of your historic property

You don't need to be an expert to carry out inspections or undertake basic repairs on your property, but it is important to know when a fault might indicate a more serious underlying problem.

This one-day course will give you the basic knowledge to look after your property, limit long term repair costs and teach you how and when to seek more specialist advice. Led by Jo Moriarty, Traditional Skills Tutor from the Tywi Centre in Carmarthen, the course will cover:

- Why old buildings are important—significance and sustainability
- Materials and methods used in older buildings
- Lime and breathability
- Considerations when making repairs
- Project planning and delivery
- Maintenance check lists
- Case studies

This course is being offered free to local people living in Pembroke and the surrounding area. Spaces are limited so please book on-line through [Eventbrite](https://www.eventbrite.co.uk/e/881009090907) [https://www.eventbrite.co.uk/e/881009090907] or by e-mailing us at pembroketwt@gmail.com.
